

Additional Programme

.... is defined as follows:

- Addressing different scientific questions than the Core Program (CP) but using the same data
- Asking for different targets and/or observing procedures than CP
- In the same fields of view
- In different fields of view

http://smc.cnes.fr/COROT/GP_science.htm

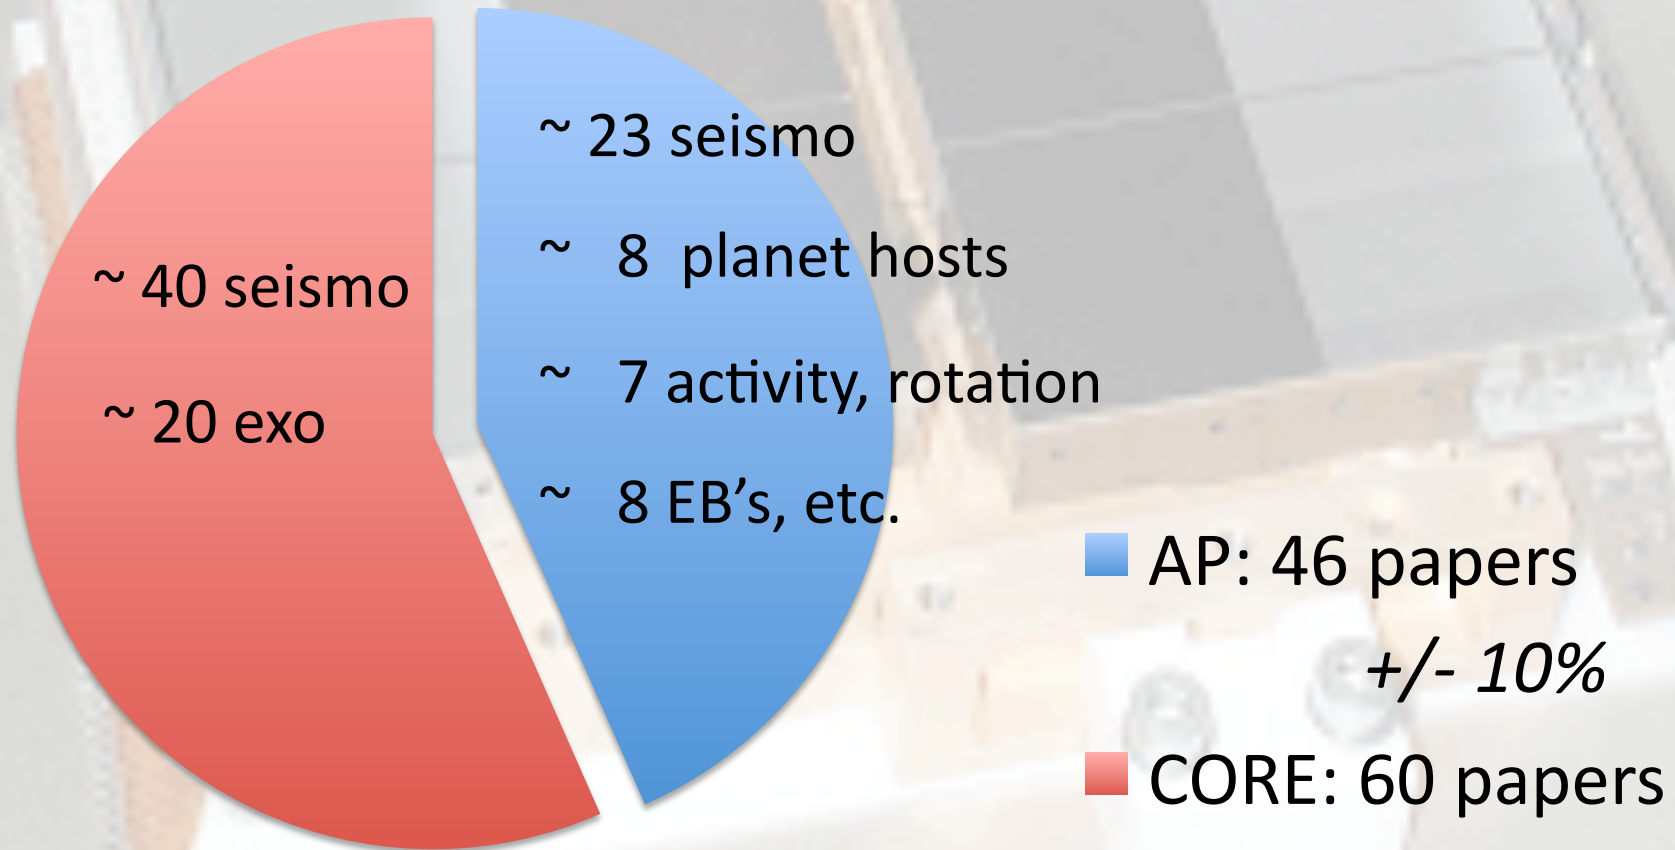

Statistics

As of May 16, 2010, CORE + AP:

- ADS: 896 entries
articles, proceedings, abstracts, thesis',
observing programmes, etc.
- CoRoT Pub: 198 entries
articles, proceedings, abstracts, general

Problem of assignment

... a try based on CoRoTpub ...

- 
- Slow publication rate compared to KEPLER
 - Largely overlapping teams with KEPLER, limited time – strong competition
 - RG – a new branch
 - EB's
